Areas of practice

Brand and messaging strategy · Copywriting · Consulting · Business development · Distributed team coordination · Agile project management · Live synthesis and public communication · AI workflow experimentation

Independent AI systems work

2026
Lisbon

neXus

Independent project, product owner & architect

Directs AI agents as an engineering team to develop an orchestration and project-management system. Sets goals, designs workflows and verifies results; agents write the code.

- Experiments with multi-provider continuity, local voice interaction, session tracking and records of which agent produced work.
- Studies failures in everyday use, including incomplete work reported as finished and drift from instructions, and tests human oversight and review processes.

Selected performances & talks

Poetry and rap at technology, climate and impact forums, 2014-present. Turns complex ideas and live discussions into language an audience can follow.

Jan 2025

Climate Hub, Davos

"Regenerative Roadshow," a performative keynote led by Chad Frischmann of Project Drawdown and RegenIntel. Served as his rap translator.

2019

UN General Assembly

Opening rap at the SDG Action Zone and Rap Up at the SDG Media Zone, New York.

2016

TEDxColombo

"Unleash Your Inner Artist," Colombo, Sri Lanka.

2020

UN General Assembly

Composed a live Rap Up during the main Digital Cooperation event and performed it as the closing.

2019

IDEA Week, Notre Dame

Moderated a blockchain and entrepreneurship panel. Performed a Rap Up opening for Bill Nye.
